KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY   2021 - 2025
Bachelors Computer science and communication engineering   Bhubhaneswar , India Cgpa: 8.95

EXPERIENCE

FREELANCER | FrontEnd - Web developer   Remote | April 2022 – Present
- I made a custom business website with my team for a firm , I helped to fix the gallery page and revamped around 5-6 pages to make them modern looking. Technology used - Javascript , html and css

SKILLS

Programming Languages	C, C++, Javascript, HTML, CSS
Libraries/Frameworks	Bootstrap, Tailwind, Reactjs, NextJS, MDBootstrap
Tools / Platforms	Github, VSCode, GIT

PROJECTS / OPEN-SOURCE

FLYRAVEL | Link   HTML, CSS, React Js and Javascript
- With this project , I am aiming to make flight ticket and hotel room prices comparison more easier and user friendly , also a cheap tour generator based on user preferences. The project is under progress.

GIRLSCRIPT SUMMER OF CODE | Link   HTML, CSS, React JS and Javascript
- I got 7 PR merged and got #111 rank. In this event , My best project was Zomato Homepage Clone in frontend.

WORDICON | Link   Javascript
- I created voice recognition system in javascript which helps to provide voice search for the dictionary wordicon. I also learned teamwork and communication in this project.

WEATHER APP | Link   HTML, CSS and Javascript
- With this project , I am aiming to demonstrate the weather and it's today and tomorrow forecast using current location of the user.

YOUTUBE DOWNLOADER | Link   Next JS, CSS, Html and download JS
- It helps to download a youtube video using the link entered in the search button.
